BULLETIN N° 08

DATE 15/December/2023

QUALIFICATION SYSTEM: SEASONS AND PHASES

The qualification system of Paris 2024 OG is composed of 3 seasons (2022, 2023 and 2024) assembled of 2 phases structured as follows:

PHASE	Start date	End date
Phase 01	22nd of June 2022	10th of March 2024
Phase 02	11th of March 2024	23rd of June 2024

Please note these new dates replace those listed in Bulletin 03 released in February 2023

PHASE 02 EVENTS CALENDAR

The table below lists the events that are part of Phase 02 Olympic Qualification, both the listed events are sanctioned as [Olympic Qualifier Series](#) (OQS) tier events and will contribute to the Olympic World Skateboarding Ranking (OWSR) as per the updated version 2.0 of the [PARIS 2024 SKATEBOARDING QUALIFICATION POINT SYSTEM V2](#)

#	Start	End	Discipline	Event Tier	City	Country
1	14/05/2024	19/05/2024	Street/Park	OQS	Shanghai	CHN
2	18/06/2024	23/06/2024	Street/Park	OQS	Budapest	HUN

OWSR POINT CALCULATION

OWSR - The Olympic World Skateboarding Ranking is defined by adding the athletes' event points. During Phase 01, depending on the final number of the events held per discipline, the following criteria will be applied for OWSR calculation:

PHASE 01 - OWSR CALCULATION CRITERIA		
	Street	Park
Number of sanctioned events	6	4
Number of sanctioned events considered in the OWSR <small>*Based on the highest points acquired</small>	4	3

Upon the conclusion of Phase 01 of the qualification system, the Phase 02 OWSR will exclusively feature the top 44 athletes per discipline and gender who successfully secured their spots in Phase 02. Phase 01 OWSR points (carry-over points) will be retained in Phase 02.

PHASE 02 - OWSR CALCULATION CRITERIA

Points earned through the 2 events of Phase 02 will both be added to the OWSR.

PHASE 02 ATHLETE REPLACEMENT

Athlete replacement after 13 March will be possible until the start of the technical meeting at the first event of Phase 02. Athletes will be replaced nominally, based on the [Phase 02 Olympic Qualifier Series Qualification System](#) rules.
